

FACT SHEET

GROUP PROFILE

The Indodrill Group is a leading drilling contractor that has provided drilling services to the mining, exploration and construction industries for over 20 years. Building on our successes in the region, we have recently expanded into the Australian underground mining industry as well as into Europe, the Middle East and Africa (EMEA). Headquartered in Singapore, The Indodrill Group operates out of 10 international offices.

Indodrill offers the most professional and efficient resource drilling services as illustrated by our track record of completing numerous projects of varying complexity and difficulty throughout a range of conditions. Our revolutionary and cutting-edge sonic drilling equipment enable us to provide the most advanced and contemporary drilling techniques to our clients.

Our teams are vastly experienced and consist of both expatriate and national individuals who have substantial knowledge of coal and mineral drilling, mineral exploration drilling, stratigraphic drilling and sonic drilling techniques. All of our people are committed to the highest standards of performance, social responsibility and integrity.

Our fleet of over 85 rigs continues to expand through the designing and manufacturing of a range of customised rigs employing the latest technology available, ensuring we are well-equipped to help our clients achieve their ambitions. All our operations are implemented under controlled conditions and are subjected to continuous regulation and improvement, as exhibited by the renewal of our ISO 9001:2008 certification for our Philippines operations. This certification reaffirms Indodrill's commitment to providing the most professional, efficient and safe services to our clients.
